

LENSPEN®

A NECESSITY, NOT AN ACCESSORY!

The award winning LensPen® technology cleans all types of optical lenses and digital display surfaces quickly and easily.

- The remarkable cleaning compound removes fingerprints with ease.
- Safe for all lenses and displays, including multi-coated surfaces.
- Unique cleaning compound will not spill or dry out.
- Environmentally friendly and non-toxic.
- Handy, high quality retractable cleaning brush.

INSTRUCTIONS FOR USE

1. Remove dust particles on lens or display surface with convenient retractable brush.
2. Remove cap and wipe the surface with smooth, circular motions of the unique flexible cleaning tip. If some smudges persist, breathe gently on the surface to be cleaned and repeat the process.
3. Replace the cap over the tip and give the cap a half twist. Twisting the cap replenishes the unique cleaning pad.

IMPORTANT: Do not use on wet surfaces. Please carefully observe the instructions for use.

Camera Lens & Display Cleaning Kit

Kit Includes:

- 1 LensPen
- 1 MiniPro II
- 1 DigiKlear
- 1 CellKlear
- 1 MicroKlear Deluxe
Microfibre Suede Cloth

LENSPEN[®] **PRO**pack[™] for **IMAGING**PROS

Camera Lens & Computer Screen Cleaning Kit

Kit Includes:

- 1 LensPen
- 1 MiniPro II
- 1 DigiKlear
- 1 CellKlear
- 1 LapTop-Pro

DIGIKLEAR®

Digital Display Cleaning Pen

- For cleaning digital glass and LCD screens on digital cameras, camcorders etc.
- Special semi-triangular shaped tip for cleaning into corners
- Retractable brush removes dust

DIGIKLEAR® COMBOKIT™ *mini* PRO®

Digital Cleaning Combo Kit

- For compact digital camera lenses & screens

Kit Includes:

- 1 MiniPro
- 1 DigiKlear

photo & optics

SENSOR**KLEAR**™

Digital Camera Sensor Cleaning Pen

- Unique shaped cleaning tip for those hard to reach CCD sensors
- No sprays, liquids, chemicals or residue
- Convenient, portable, environmentally safe

SENSOR**KLEAR**™ PRO

Sensor Cleaning Kit

- For Imaging Pros
- For cleaning CCD & CMOS sensors

Kit includes:

- 1 SensorKlear pen and 3 replacement heads
- 1 double valve Rocket Blower
- 1 MicroKlear Microfibre cloth
- 1 leather Carrying Case

micro**PRO**TM

MicroPro Compact Lens Cleaning Pen

- Safely and effectively cleans micro camera lenses
- Retractable brush removes dust
- Specially designed LensPen tip cleans places its bigger brothers can't

ANTI-FOG *solution*

Three-pack Replacement Bottles

- Convenient spray bottles
- Anti-fog and anti-static properties
- Meets ASTM F963 standards
- Non-toxic, environmentally friendly

MOBILEKLEAR™ kit

Mobile Camera Phone Cleaning Kit

Kit Includes:

- 1 CellKlear Lens Cleaning Pen
- 1 MicroKlear Microfibre Cloth for cleaning mobile phone screens

HUNTER PRO™

Professional Cleaning Kit

For riflescopes, binoculars, spotting scopes cameras & more

Kit includes:

- 2 LensPens
- 1 MiniPro II
- 1 Anti-Fog Solution
- 1 MicroKlear

FOGKLEAR™

Dry Anti-fog Cloths

- Environmentally friendly

Kit Includes:

- 2 dry Anti-Fog Cloths - over 200 cleanings per cloth
- Double-seal cloth storage system

HURRICANE BLOWER

For Lenses, Filters, CCD sensors & Mirrors

- High quality non-toxic rubber bulb
- Resistant to high and low temperatures and tear proof.
- Double-valve design prevents breathing in dust and refills quickly

screen cleaning

LapTop-Pro™

Screen & Keyboard Cleaning System

- Special LensPen pad cleans screens
- One brush removes dust from screen, the other cleans between keys

LapTop-Pro™ ULTRA

Deluxe Laptop Cleaning Kit

Kit Includes:

- 1 LapTop-Pro screen & keyboard cleaner
- 1 CellKlear lens cleaner for laptop camera lens
- 1 MicroKlear
- 10 Screen Conditioning Tissues

screen cleaning

VIDIMAX™

TV and Computer Screen Cleaning Device

- For cleaning LCD, plasma & computer screens
- Unique cleaning pad removes messy fingerprints safely and easily
- Handy soft dust removal brush

VIDIMAX™ ULTRA

Deluxe LCD/ Plasma Screen Cleaning Kit

Kit includes:

- 1 VidiMax Screen Cleaner
- 1 MicroKlear Deluxe Microfibre Suede cloth
- 10 Screen Conditioning Tissues

screen cleaning

NAVKLEAR™

GPS Screen Cleaning Kit

Kit includes:

- 1 NavKlear screen cleaner
- 1 MicroKlear microfibre cloth
- 3 screen conditioning tissues
- Compact carrying case

MICROKLEAR™

Microfibre Suede Cloth

- For cleaning photo, stereo, and computer equipment, CD's and much more
- Absorbs dirt and oily film without chemicals
- Incredible softness, safe for all surfaces
- Washable, can be used repeatedly

screen CLEANING KIT

For Computers and TV's

Kit includes:

- 20 replacement Screen Conditioning Tissues
- MicroKlear Deluxe Microfibre Suede Cloth

accessories

PANAMATIC™

360° Camera Indexer & Leveler

- Create seamless panoramic photographs
- Fits all standard tripod and camera mounts
- Works with any photo stitching software

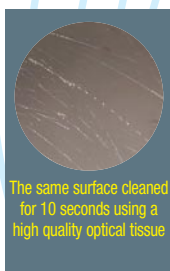

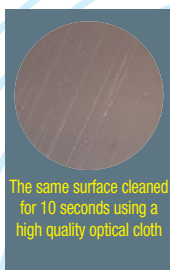

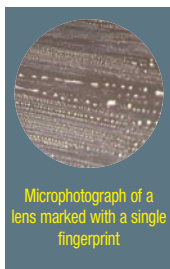

PANAMATIC™ PLUS

Panorama Imaging Kit

- Create seamless panoramic photos
- 360° index wheel with bubble level for up to 12 individual photos
- Fits all standard tripod and camera mounts
- PanoramaMaker™ software included

Q. Are LensPen products safe for my lenses, displays and screens?

A. Lab tests and owner testimonials prove LensPen is safe for lenses, lens coatings, digital displays and screens. The cap protects the tip from contamination until used, unlike microfibre cloths which carry dust and other contaminants.

Q. How many cleanings can my LensPen perform?

A. Lab tests have shown that a LensPen can remove 500 fingerprints with no discernible loss of cleaning quality. Your experience may vary depending upon the size of your lens or display, and the amount and type of contaminant.

Q. Can LensPen clean my eyeglasses?

A. Yes, but LensPen products are designed for cleaning fine optics. Cleaning eyeglasses will shorten their useful life due to the high amounts of contaminants usually present. LensPen products should not be used on plastic surfaces.

Q. Will LensPen products reduce static charge?

A. Yes. Lab tests have shown that the unique LensPen cleaning compound can reduce dust attracting charges.

Q. Is LensPen environmentally friendly?

A. Yes. Unlike solvents and tissues, LensPen creates no waste.

Q. Why do LensPen products leave a black mark on my finger, but not on the lens or display?

A. LensPen's cleaning compound is carbon based, similar to a lead pencil. It leaves a mark on all surfaces that are not extremely smooth.

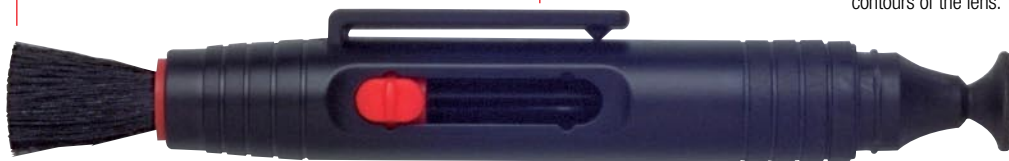

LensPen anatomy...

The convenient, retractable brush, made of soft, natural bristles, is used to dust away any hard particles or contaminants.

LensPen® is kept close at hand with this convenient pocket clip.

This is the secret of LensPen.® Designed for flexibility, the unique tip holds the special LensPen cleaning compound. It flexes, matching the contours of the lens.

More than just protection for the tip, the special LensPen cap replenishes the tip with more cleaning compound each time it is replaced and twisted a half turn.

By applying gentle pressure on the lens and using smooth circular motions, any smudges will be removed instantly with the LensPen.

take a tip from us... we have a size to fit your lenses & digital devices
